Attention breakfast blend lovers, **Lion's Paw** is it! This single origin light roast boasts a smooth nutty fruitiness, unique to this special Central American origin. Its light roast nature will give you all the get-up and go you need!

The medium roast is the mellowest of all house blends with its signature creamy smoothness and chocolatey notes. **Lion's Den** is reminiscent of a cozy visit with a good friend.

**Lion's Roar** is a blend of two origins, one slightly earthy and bold & one nutty and smooth. Together they make one *roarin'* coffee: Lion's Roar! Great black or with cream!

This single origin **DECAF Brazil** boasts a nutty chocolate note that's creamy and smooth, perfect for drinking black or with cream!

This single origin **DECAF Guatemala** brings a chocolate caramel undertone with a bright bold, citrus liveliness!
